DETAILS OF TRAINING

Do you have a structured residency or fellowship program? Yes, we are one of the main nephrology residency programs in the region. We have 12 Nephrology residents per year in our team, with them directly participating in the evaluation of PD patients at the outpatient center and in-patient setting (wards and ICU), as well as weekly training in the placement of Tenckhoff catheters. We have 2 scientific sessions 2 times per week where we discuss clinical cases and articles in the field.

Do you provide training opportunities for nurses, pediatrics, etc? Yes, for nurses

Minimum duration of the training period: 1 month

Hands on training: Yes

Language(s) of instruction: English/Portuguese

Language(s) spoken by patients: Portuguese

Are regular scientific activities (lectures, case discussions, journal club) organised?

Yes, we have weekly clinical case discussions sessions, where we evaluate the clinical course of a PD patient admitted in the Nephrology ward, discussing their presentation, complications and treatment assessment. We also have a weekly meeting where we approach the latest articles in the field, also inserting basic topics in the conversation to address younger trainees in the team.

Do you provide opportunities for research? Yes

OTHER RELEVANT INFORMATION

Do you provide accommodation options? No

Are there any registration costs associated with the fellowship? No
